

## Addendum to School Behaviour Policy for Covid-19 Safety Precautions

Children will be expected to follow the school safety procedures in relation to Covid-19 as appropriate.

If a child wilfully fails to follow the procedures as made clear to them and as a result compromises their own safety or the safety of others, sanctions will apply in accordance with the school behaviour policy, which in the most serious cases could include exclusion from school.

Behaviour that will be construed as contravening safety instructions might include:

- Not following altered routines for arrival or departure
- Not following school instructions on hygiene
- Not following instructions on who pupils can socialise with in school
- Not moving around the school as per specific instructions
- Take responsibility for using tissues to catch coughs and sneezes and disposing of them in the lidded bin provided
- Not following rules about sharing any equipment
- Not following amended expectations about break and lunch times, including where children may or may not play
- Not following the rules about access to toilets
- Not following rules about coughing or spitting at or towards any other person

This list is not exhaustive.
